Jessica Merriam
Software Development Intern
Verint
Grand Rapids, MI

Dear Jessica Merriam,

Your mission to drive purposeful progress by blending technology, strategy, and human creativity aligns perfectly with my passion for innovation and impact.

In my previous role as software developer somewhere, I was responsible for integration. Through compelling data, I demonstrated my ability to integrate technology with human-focused solutions, driving meaningful results. I believe my expertise in typing and my dedication to putting people at the center of every solution make me a strong fit for your team.

What excites me most about Verint is your belief that real transformation stems from thoughtful strategy, empathy, and ingenuity. I thrive in environments where collaboration and innovation intersect to create solutions that truly improve lives. I would welcome the opportunity to further discuss how my skills and experiences align with Verint's goals. Thank you for your time and consideration—I look forward to the possibility of joining your team.

Best regards,
Skylar Switzer
